Portfolio

Education

Vidyavardhini's College of Engineering & Technology

Mumbai, India

B.E. in Computer Engineering – GPA: 8.00

2022 – 2026

Honours Specialization: Cyber Security – GPA: 10

2023 – 2026

HSC-PCM, Maharashtra Board

2021

Narayana Junior College — 89.2%

Experience

UI/UX Design Intern – Certificate

Dec 2025 – May 2026

AkaiSpace — On-site

- Conceptualized and designed user interfaces and user flows for the AkaiEarn data labeling platform, creating wireframes and high-fidelity prototypes using Figma. Ensuring complex web3 workflows were accessible to everyday users.
- Created high-fidelity prototypes and design systems for our AI-powered tools, focusing on clarity, and visual appeal.

UI/UX Design Intern – Certificate

Feb 2025–Mar 2025

The Tann Mann Foundation — Remote

- Led end-to-end design process from wireframing to high-fidelity prototypes using Figma, managing design iterations through collaborative workflows and tracking project milestones via design sprints
- Delivered cohesive user experience designs aligned with user research insights, improving interface usability by 25%. Optimized design systems and user flows through iterative prototyping, user testing, and design pattern standardization

Projects

AkaiEarn | Figma, UX Research, Prototyping, Design Systems

Live

- Designed an incentive-driven AI data labeling platform that rewards users for completing annotation and data enrichment tasks with redeemable INR-based earnings.
- Led the end-to-end design process, creating user flows, wireframes, design systems, and high-fidelity prototypes in Figma. Improved usability by streamlining task discovery, progress tracking, feedback mechanisms, and reward redemption workflows through iterative UX design.

MentorHer | Next.js, Firebase, Firestore, Tailwind CSS

Live Demo

- Implemented a personalized mentor recommendation algorithm using user skills, industry preferences, and availability data, increasing successful mentor matches by 60% and reducing manual pairing efforts.
- Designed and deployed a fully responsive user interface using Next.js, Tailwind CSS, and Firebase Auth, enabling secure multi-device access. Engineered a real-time chat system using Firebase Firestore and React, reducing mentor response time by 50%.

Achievements

Winner at EthMumbai – 2026

Top 10/800+ Teams – PEC Hacks International Hackathon (Certificate) – 2024

1st Runner-Up – NIT Agartala Hackathon Arjuna 2.0 (Certificate) – 2024

1st Place – Code-e-Fiesta State-Level Hackathon (Certificate) – 2024

Technical Skills

Languages: Python, Java, C/C++, HTML/CSS, JavaScript, TypeScript

Design & Prototyping Tools: Figma, Canva, AI Product Visualization

UX/UI Capabilities: Wireframing, Prototyping, User Interface Design, User Experience Design .

Tools& Databases: MongoDB, MySQL, PostgreSQL Git, GitHub, VS Code, Firebase, Linux.

Leadership / Extracurricular

Deputy Joint Secretary, Computer Society of India

2024–Present

- Organized 15+ technical workshops on AI/Web3 with 100+ attendees

NSS Technical Lead - National Service Scheme

2024–Present

- Managed digital campaigns reaching 5,000+ students

English Editor - The Literati Club

2022–Present

- Edited 50+ articles & mentored peers, improving content quality by 30%.
